EDUCATION

B.Tech - Computer Science Engineering CSI WESLEY INSTITUTE OF SCIENCE AND TECHNOLOGY

06/2021 - 04/2025

CGPA : 6.9 / 10

Intermediate

Sri Chaitanya Junior College

06/2019 - 06/2021

Percentage : 83%

SSC

St. Venus High School

06/2018 - 04/2019

GPA : 9.0

PROJECTS

Stock Prediction

Project Description

Aim

- Developed a model to forecast stock-prices using historical data and market indicators.
- Implemented various regression algorithms to analyze trends and improve prediction accuracy
- Technologies:** python, Pandas, NumPy, Matplotlib, LSTM, TensorFlow.

Early Detection Of Cardiac Arrest in Newborns Using Machine Learning

Project Description

Aim

- Created a machine learning model to help doctors detect problems in new born babies at an early stage.
- The system studies the baby's health data like heart rate and oxygen levels to predict the risk of cardiac arrest. this helps in giving quick treatment and saving lives.
- Technologies:** Python, Django, MySQL, HTML,CSS

SKILLS

Core Java

Collection Framework

Object Oriented Programming

Exception Handling

File Handling

HTML

CSS

JavaScript(Basic)

Structured Query Languages(SQL)

PERSONAL SKILLS

-Time Management

-Effective Communication

-Team Collaboration

-Problem Solving

-Adaptability to new Technologies

CERTIFICATES

Certification for completion of python for beginners Website from Great Learning (2024).
